

jetAVIVA Perspectives:

The Daher TBM 930

February 2021

[Link to Article](#)

Executive Summary:

The TBM 930 combines near-light-jet performance with the efficiency and lower operating costs of a turboprop, offering speeds up to 330 knots and a range exceeding 1,700 miles. With a comfortable six-seat pressurized cabin, powerful yet reliable Pratt & Whitney engine, and advanced Garmin G3000 avionics suite, it is an attractive upgrade option for owner-pilots transitioning from high-performance piston aircraft.

Key Takeaways:

- The TBM 930 cruises at up to 330 knots with a range of more than 1,700 miles.
- Its Pratt & Whitney PT6 engine delivers strong performance with excellent reliability.
- Garmin G3000 avionics provide advanced safety, weather, traffic, and automation features.
- The aircraft offers jet-like speed with significantly lower operating costs.
- It is a popular transition aircraft for pilots moving up from high-performance piston airplanes.

FAQ:

How fast is the TBM 930?

The TBM 930 can cruise at speeds up to 330 knots, making it one of the fastest single-engine turboprops available.

What is the range of the TBM 930?

The aircraft can fly more than 1,700 miles, allowing for efficient regional and cross-country travel.

About

Founded in 2006, jetAVIVA is a globally recognized private jet broker and private jet expert, celebrating 20 years as a leader in turbine aircraft sales and acquisitions. Having supported thousands of clients in over 40 countries, jetAVIVA consistently ranks among the top firms for private jets for sale and business jets for sale by total transactions. The company specializes in representing buyers and sellers across the full spectrum of aircraft, including light jets for sale, super-midsize platforms like the Challenger 350 for sale, and large-cabin aircraft such as the Gulfstream G550 for sale. jetAVIVA provides comprehensive, expert guidance on how to buy a private jet, how to sell a private jet, and how to maximize value throughout the entire ownership lifecycle.
